

The lab suggested that I should give a short introduction about L^AT_EX. I don't know what I should present, so I have decided to introduce:

1 Equation

You can type

`\alpha`

to obtain α .

2 Table/Picture

There is a table here.

A1	A2
Ha	

3 Citation

Here, I use a paper of Chang (2015).

4 Thesis

Here, I suggest that people should use the format of Otago University.
